200/Oct/2016
The Oklahoma State University College of Osteopathic Medicine (OSU-COM) seeks to admit students who want to become primary care physicians in rural and underserved Oklahoma. The Rural and Underserved Primary Care Early Admissions Program allows students who want to become dedicated primary care physicians practicing in rural and underserved Oklahoma to complete pre-doctoral training in seven years.

OSU-COM and the selection committee recognize that the OSU Departments of Biochemistry and Molecular Biology, and Animal Science in the College of Agricultural Sciences and Natural Resources provides rigorous academic preparation for a variety of careers in health care, including osteopathic medicine. Utilizing this curriculum for the first three undergraduate years on the Stillwater campus, and combined with the OSU-COM first year curriculum as their fourth year, students in the program are able to earn a Bachelor of Science degree from OSU.

Students then progress through the second, third, and fourth years of the rural and underserved medical track to graduate with the Doctor of Osteopathic Medicine (D.O.) degree.

Minimum Requirements for Applicants
- Resident of the state of Oklahoma
- Graduated from a high school in rural or underserved Oklahoma
- Strong desire to practice primary care medicine in rural or underserved Oklahoma
- Must declare a major in Biochemistry and Molecular Biology or Animal Science in the College of Agricultural Sciences and Natural Resources
- Must have completed 45 credit hours toward the degree plan
- Overall grade point average (GPA) of 3.6 and Science GPA of 3.5
- Complete an AAMC application by February 28 of sophomore year
- Complete a supplemental application by March 30 of sophomore year
- Two letters of recommendation: One from a faculty advisor and one from an osteopathic physician
- Agree to an interview with the Early Admissions Program Selection Committee (Interviews occur during the spring semester of the sophomore year.)

Continued Eligibility for Admission to the College of Osteopathic Medicine
- Maintain an overall GPA of 3.5
- Have a Science GPA of at least 3.0
- Completion of 90 hours of course work toward the Biochemistry and Molecular Biology degree or the Animal Science degree
- Complete additional evaluative requirements
- Take the MCAT during the spring semester of their junior year and have the scores reported to OSU-COM via the MCAT Testing History Exchange site for review by the selection committee
- Must obtain a minimum score of 492 on the MCAT

Continued Eligibility for Progression to 2nd Year Osteopathic Medical School Curriculum
- Awarded a Bachelor of Science degree from OSU
