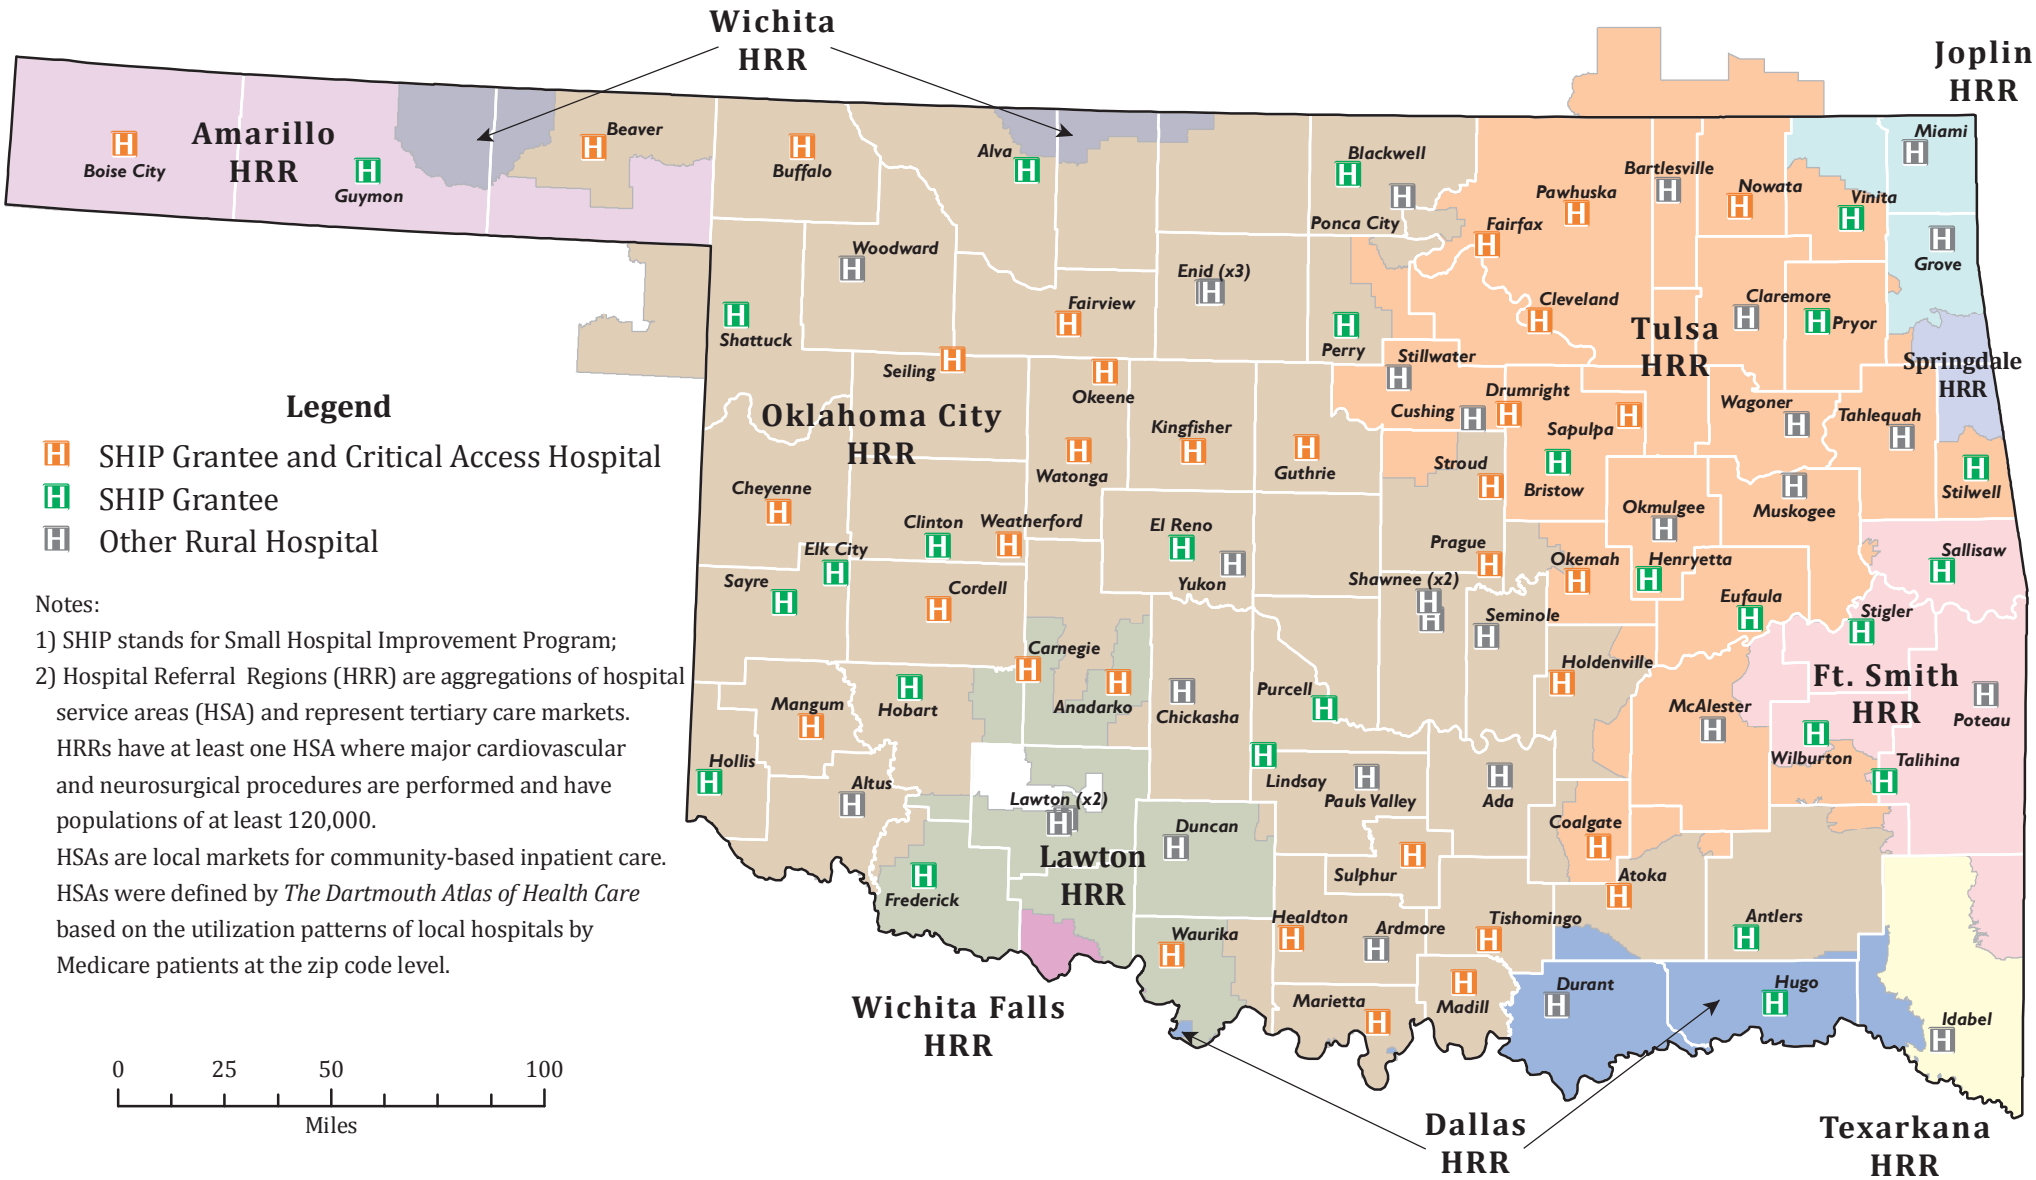
Oklahoma Rural Hospitals and Hospital Referral Regions
2009



Legend

- SHIP Grantee and Critical Access Hospital
- SHIP Grantee
- Other Rural Hospital

Notes:

1) SHIP stands for Small Hospital Improvement Program;
2) Hospital Referral Regions (HRR) are aggregations of hospital service areas (HSA) and represent tertiary care markets. HRRs have at least one HSA where major cardiovascular and neurosurgical procedures are performed and have populations of at least 120,000.
   HSAs are local markets for community-based inpatient care. HSAs were defined by *The Dartmouth Atlas of Health Care* based on the utilization patterns of local hospitals by Medicare patients at the zip code level.
